

Enhancing energy efficiency at FrieslandCampina

IN 2015, INTERNATIONAL DAIRY COMPANY FRIESLANDCAMPINA AND BILFINGER EFFICIENCY SIGNED A STRATEGIC PARTNERSHIP AGREEMENT. THIS PARTNERSHIP INCLUDES A GROUP-WIDE CLOSE COOPERATION AND WILL LAY THE FOUNDATION TO JOINTLY IMPLEMENT SUSTAINABLE OBJECTIVES SUCH AS A REDUCTION OF 40K TONS OF CO₂ EMISSIONS AS WELL AS A DECREASE IN ENERGY CONSUMPTION. ENERGY SAVINGS OF OVER 6% PER SITE WILL BE ACHIEVED IN THIS CONTEXT.

The first step of this partnership will be realized with the project 'ENCORE' (Energy Consumption Reduction and Efficiency). The first phase of the project measures to enhance energy efficiency at an initial 15 production locations in the Netherlands and elsewhere will be identified, designed and implemented.

Europe's largest energy efficiency project

With the signing of the framework agreement, the immediate implementation of the optimization program, in which several Bilfinger companies are involved,

was started. First and foremost among these is Tebodin, which will be responsible for the local project management of the respective sites because of its many years of expertise in the field of energy reduction. 'This is one of the largest orders ever awarded for an energy efficiency project in Europe's food industry', explains Peter Eilers, Chairman of the Executive Board of Bilfinger Efficiency GmbH.

Route 2020

This project is part of the implementation of FrieslandCampina's sustainability

strategy. With the so-called 'route2020' and its ambition to achieve climate-neutral growth, the international dairy company is placing a strategic focus on sustainability and climate-neutral production. Against this backdrop, FrieslandCampina tendered an 'Energy Reduction' program in the first quarter of 2015.

Professional partner

FrieslandCampina selected Bilfinger Efficiency to jointly develop the concept and final contract. 'Energy efficiency and sustainability are key priority areas

for us at FrieslandCampina. With Bilfinger Efficiency we have identified and selected a professional partner, who can help us further improve in those areas through its network and experience," says Hein Schumacher, CFO of Royal FrieslandCampina N.V. ■
